SLIP RESISTANT XTS TRAIL OUTSOLE

The easy-to-clean rubber outsole ensures perfect contact with the ground. It is non-slip and abrasion-proof and heat-resistant up to 300°C (HRO). The specially designed cleat profile and the wide flex grooves guarantee optimal flexion, optimize the water-displacing properties (windshield wiper effect) and provide a secure hold on a wide variety of surfaces.

IMPULSE.FOAM[®] midsole

Ultimate comfort during long working days. The innovative IMPULSE.FOAM[®] midsole in two different densities reacts to each of your steps with an energy impulse. Thereby the IMPULSE.FOAM[®] does not only return the energy, but also provides maximum cushioning and excellent stability.

QUICK LOCK

Press, turn and the shoe sits perfectly on the foot - permanently. The precisely adjustable twist lock of the QUICK LOCK lacing system is as simple as it is ingenious. If you pull on the fastener, the laces come loose. Another advantage - operable with gloves.

FAP[®] - Flexible Anti Penetration

The flexible anti-penetration midsole made of ceramic-coated fibers, reliably protects the feet completely from penetrating objects.
