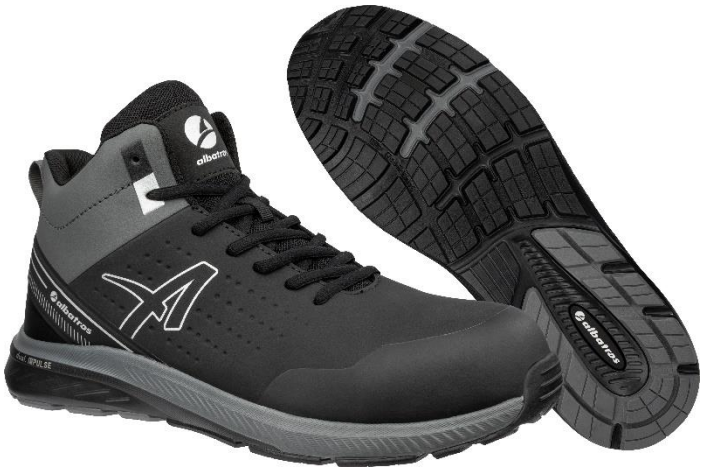
VIGOR 2 IMPULSE BLACK MID S3S ESD FO HRO SR

Art. Nr. 63.640.0



Protection: fiberglass toe cap and flexible FAP® LITE midsole
Plus: ESD, metal free, breathable functional lining, comfortably-padded collar and dust tongue
Upper: durable microfiber
Lining: breathable functional lining
Footbed: anatomically formed comfit® AIR footbed
Sole: DUAL.IMPULSE - 300°C heat and slipresistant rubber outsole with double foamed IMPULSE.FOAM® midsole in two different densities for maximum cushioning, stability and comfort
Colour: grey
Sizes: 36 - 47

Also available:

WAVE IMPULSE LOW
646400

VORTEX IMPULSE LOW
646410

FAP LITE FLEXIBLE ANTI-PERFORATION · IMPULSE.FOAM · 3D TRIPLE DENSITY

COMPOSITE · SLIP RESISTANT · HRO SOLE · METAL FREE · UNISEX · VEGAN · ESD

DUAL IMPULSE SLIP RESISTANT OUTSOLE

The easy to clean rubber outsole ensures perfect ground contact. It is non-slip and abrasion resistant as well as heat resistant up to 300°C (HRO). The specially designed cleat profile and the wide flex grooves guarantee optimum flexion, optimize the water-displacing properties (windscreen wiper effect) and provide firm grip on a wide variety of grounds.

comfit® AIR FOOTBED

The newly developed, breathable ALBATROS® comfit® AIR footbed has elevations in the heel and ball area of the foot as well as a support of the longitudinal arch. This helps the foot keeping its natural position in the shoe and stimulates the musculature while walking. The slip-resistant textile cover is odour-resistant, moisture absorbing and washable at 30°C.

IMPULSE.FOAM® midsole

Ultimate comfort during long working days. The innovative IMPULSE.FOAM® midsole in two different densities reacts to each of your steps with an energy impulse. Thereby the IMPULSE.FOAM® does not only return the energy, but also provides maximum cushioning and excellent stability.

FAP® LITE - Flexible Anti Penetration

The latest generation of metal-free penetration protections:
- 50% lighter
- very high flexibility
- better cushioning and pressure elasticity
- cooling effect through breathability and sweat absorption
